

OUTSTANDING ROI

A WALK-BEHIND THAT GOES THE DISTANCE

Realize an outstanding return on investment with the years of dependable operation you'll get with the SW Walk-Behind. A simple belt-drive design and five-speed transmission make it easy to service and to operate.

- 1 Heavy-duty Advantage™ and Velocity Plus™ cutter decks are constructed for outstanding durability (52" decks are made with a 10-gauge top and 7-gauge skirt; 32", 36" and 48" decks are constructed of 7-gauge steel).
 - 2 Large drive wheels feature rounded edges for better flotation and less turf tearing.
 - 3 Large 5.5-gallon fuel tank features a molded-in cup holder and large filler neck.
- Tough spindle assembly features a cast-iron housing with a heavy-duty flange secured with $\frac{5}{16}$ " grade-8 mounting hardware. Tapered roller bearings add 50% more load-carrying capacity than ball bearings. Covered by a 3-year limited warranty.
 - Fixed cutter deck adjusts from 1 $\frac{3}{4}$ " to 4 $\frac{1}{2}$ " in $\frac{1}{4}$ " increments.
 - Flat-free (semi-pneumatic) front caster tires reduce maintenance costs and keep you in the field, cutting grass.
 - Full commercial-grade construction ensures years of dependable service use.
 - Productive ground speeds up to 6 mph get the job done fast.
 - Convenient instrument panel puts controls at operator's fingertips. Panel has key, cutter-deck-engagement switch, choke, throttle and digital hour meter.
 - Belt cover has easy-access holes to reach the top spindle nuts for blade removal.

Dependable Ogura clutch engages and disengages the blades quickly and easily. Adjustable air gap for long life.

Five-speed Peerless transmission features nine-spline coupler shafts for durability and a wide selection of forward ground speeds.

Spring-assisted EZ-Grip design reduces hand force required to operate drive controls for maximum operator comfort.

Twin power belts provide double friction to pulley surfaces and reduce slipping in wet conditions.
