

BLOWERS

RedMax blowers are powerful, efficient and easy to operate. Packed with features, they truly deliver all the commercial performance you need.

Two-stage, heavy-duty air filtration system

Anti-static throttle lever prevents static electricity shock

Clean air intake system reduces dust and extends filter life

Reflective decals provide safe operation in low light conditions

Available in standard hip mount throttle or tube mounted / right hand (RH) throttle

Some features not available on all models.

EBZ8560/RH

With 1,000 CFM of air volume at speeds of 220 MPH at the nozzle, the powerful EBZ8560 blower makes clearing heavy debris a breeze. In addition, it's equipped with the industry's largest fuel tank so you can reduce trips to the trailer to refuel.

OUR MOST POWERFUL BLOWER

EBZ7500

Powerful commercial backpack blower for your toughest jobs. Strato-Charged engines deliver fuel savings and reduced emissions.

EBZ6500

Lightweight commercial backpack blower combines all the features pros need to get the job done - easy operation, powerful performance and proven durability.

EBZ5150

Powerful commercial-style backpack blower for demanding jobs. Excellent performance, built to withstand rugged conditions.

HBZ260R

Powerful handheld blower designed for commercial use. High blowing capacity is a result of the fan and housing design, and in-line tube.

HB281

Well balanced handheld blower that's easy to use and maneuver. Productive and durable.
