AERSTORM[™]

Stand-On Aerator

AERSTORM

STAND UP FOR INCREASED PROFITABILITY.

Aeration is a key step in making turf the healthiest it can be. The Scag® AerStorm™ is the solution for tackling this job efficiently and profitably.

EASY DEPTH ADJUSTMENT AND ENGAGEMENT

The Scag AerStorm's approach to tine depth adjustment is simple, quick and easy.

- Simple and intuitive depth selection pin with easy-grip rubber knob.
- Select aerating depths of 1" to 4" in 1/2" increments to meet the needs of each specific property.
- Hydraulic tine engagement (raise and lower), via a convenient foot-activated switch, allows you to keep your hands on the steering controls for maximum productivity and safety. A tine activation switch on the instrument panel prevents accidental engagement/disengagement while working or transporting.

Ergonomic drive control lever design provides incredible ease-of-use.

Easy to reach, full-featured instrument panel for easy viewing and operation.

Spacious operator platform with suspension and padded, bolstered cushion for a smooth, comfortable ride.

Removable cushion and lower panel allow quick and easy service access to hydro tank and tines.

- **Heavy-duty construction** ensures years of dependable service and worry-free productivity.
- Rugged, **dual hydraulic drive system** delivers dependable power with 10 cc Hydro-Gear® pumps and 14.5 ci Parker wheel motors.
 - ▢ Large capacity hydro system includes **pump cooling fan** which helps lower hydraulic system temperatures for added reliability and longevity.
- **Productive ground speeds** help get the job done fast: up to 7 mph. Cover up to **2 acres per hour**.
- **Large 5.5-gallon fuel tank** features large filler neck and fuel gauge for operator convenience.
- Powerful and efficient **23 hp Kohler® Command Pro® engine** delivers huge power, along with exceptional efficiency and dependable performance.

- **30" aerating width** allows you to cover more ground in less time, while allowing you to fit through gates.
- **48 strong, self-cleaning coring tines** deliver reliable and continual turf plug extraction.
- **Adjustable hydraulic down-pressure** helps to penetrate even the hardest and driest soils to ensure effective aeration performance in all conditions.
- **Center tines are free-rolling** to allow for maneuvering around many trees and obstacles while engaged.
- **Wide stance and minimal length** optimizes the machine's overall maneuverability and stability.
- **Large 18" drive tires** provide surefooted traction.
- **Flat-free (semi-pneumatic) front caster tires** eliminate downtime and expense caused by flat tires.
- **Front and rear tie-down points** for easy trailering.
- **Strong warranty:** 2-year commercial / 90-day rental limited warranty coverage against manufacturing defects.
- **Drop seeder** accessory will be available.

The **Tiger Eye™ Advanced Monitoring System** keeps a constant, real-time "eye" on important system functions of your AerStorm. The system features blue backlighting for low-light conditions, yet has high contrast visibility in full sunlight. IP 67 rated water and dust proof with a scratch-resistant lens for worry-free performance in any conditions.

Systems monitored*: Operator presence, PTO (not utilized on AerStorm), and parking brake circuits, safety interlock module, hour meter and volt meter / charging system.
